DOD EMALL Welcomes New Partner

DOD EMALL is pleased to announce that work has begun with our new partner IBM, on the rollout of a Federal Mall (FED-MALL) in late calendar year 2015. This effort will aim to provide a commercial look and feel, as well as a streamlined registra-

tion, ordering, and research process. Our goal is that FEDMALL will operate just like your everyday e-commerce website, while being fully compliant with policies and regulations. Bottom line, we want to make it as

easy as possible for the Warfighter to obtain goods and services and help support the overall DoD mission. We will ensure to keep our customers updated on the rollout of FED-MALL.

Interactive DLA Map Catalog

The Interactive Map Catalog was brought online in July 2014 as a replacement for the decommissioned Online DLA Map Catalog. Product data is updated weekly, ensuring that the most relevant and up-to-date information is available each time the catalog is used. The Interactive

Catalog presents a streamlined interface with tools for selecting products directly on the map. The users can filter their search results by typing any relevant information about the product such as NSN, city, or country. Registered DOD EMALL users can go to the

site, select the “Tools” menu and click on “Interactive DLA Map Catalog” to find and order the maps they need. For more information on the Map Catalog, please visit <http://www.dlis.dla.mil/mapcatalog/default.aspx>. DLA Map examples are shown on next page.
